Coordinated Entry Through the Lens of HMIS Data

A BIRD’S EYE VIEW

SWATHI MUMMINI & CARRIE ERICKSON, ICA

*All data points reviewed in this report are based off the Beta version of the Coordinated Entry Monitoring Report. Numbers are susceptible to change.

Hello!
Who are we?
Who are you?
Today’s Goals

➢ To better understand the CE systems of SE and SW using the new CES Monitoring Report
➢ To review recent updates to the Priority List report and the new Assessor Agency Check report
➢ To create greater transparency and accessibility around CES processes, data, and reports
➢ Attendees leave with:
  • Greater transparency
  • Sense of ownership
  • Your impact on the CE system
  • What can you do?

What we WON’T cover

☑ Exhaustive review of every table in report
☐ Strategies and best practices for working with clients
☑ Future of the VI-SPDAT
☐ CES Policies and/or Procedures specific to your CoC
Some quick context

When CES started
When CES in MN was fully implemented in HMIS
Reminder: Multiple workflows
History of CE Report

MN CE HMIS Implementation

2017

2018

Jan  |  Apr  |  Jul  |  Oct  |  2018 |  Apr  |  Jul

SWC & SEC Implementation 4/3/2017
HCC Phase 1 Implementation 5/3/2017
NWC Implementation 6/15/2017
WCC Implementation 2/27/2017
CNC Implementation 6/1/2017
SMAC Implementation 1/3/2017
SLC Implementation 7/3/2017
RCC Implementation 7/17/2017
HCC Phase 2 Implementation 11/1/2017

Priority List QA Project 6/25/2018
CES Monitoring Report Beta Release 9/5/2018
Ask the Data Owl

• Get into small groups
• Imagine you are in front of this wise old owl, and you can ask her anything about your CoC’s CE system. What would you ask?
• Come back together and share your questions!

Some Critical Questions

How many households are on the priority lists in SE and SW?

Where are the households currently living?

Who is on the priority lists? What is the need?
  • Household Type
  • Race
  • VI-SPDAT Score
  • Subpopulations

How long are households on priority lists across the state?

What is the inflow and outflow of individuals on the priority list each month?
How many people are entering? How many are leaving?

How many referrals are being sent? What type? Do resources meet needs?
9,139 households were active on priority lists across the state at some point between April 1, 2018 to June 30, 2018.

6,350 households are from the ten counties below.

That’s 68%
Who are they?

The majority are
- Singles
- Multi-Adult Households
- Multi-Child Households

Who are they?

People of color are disproportionately affected.
9,139 households were active on priority lists across the state at some point between April 1, 2018 to June 30, 2018.

Veterans

Fleeing Domestic Violence

Literally Homeless

Chronically Homeless

Long Term Homeless

First Time Homeless

Disability of Long Duration

5,778 households have a head of household who reports a disability of long duration.
50% of all households on priority lists statewide have scores between 6 and 11.

25% of households have a score from 0 to 5,
25% have a score from 6 – 8,
25% from a score from 9 – 11,
25% above 11.

In each month (June, July, August)...

- there were about twice as many people added to the list as there were people removed from the list. For each person removed from the list, two more were added.
- the “statewide priority list” was comprised of about 12-13% newly-added individuals and 88% carried over from the previous month.
- Of this total, about 6-7% are removed from the list (for all reasons – housed, self-resolved, etc). Surprisingly consistent!

There were 1,287 people on the list during this time period who had already been on it for over a year.
1 out of 4 households has been on a list for more than 287 days.

1,455 housing referrals were made across the state at some point between April 1, 2018 to June 30, 2018.

1,359 households were referred to housing programs across the state at some point between April 1, 2018 to June 30, 2018.
Limitations

ONLY CE INFORMATION ENTERED IN HMIS IS INCLUDED IN THIS REPORT. INFORMATION IS ONLY AS GOOD AS THE DATA BEING ENTERED INTO THE SYSTEM.

Management Report Discussion

1. Who feels like these are data points you can use in your CoC? What are some initial thoughts? First reactions?

2. If we pulled this report for your CoC, what do you think it would show us?
The New & Improved Priority List Report

- What does this report do, and who does it pull?
- How is a client removed from the list?
- What were the feature enhancements from this past summer?

Priority List Management in Action

Let’s hear from your PLMs!
- Katherine Cross – SE
- Justin Vorbach – SW
What can YOU do?

For Assessors

* The Provider Specific CES report has changed! It is now the CE Assessor Agency Check.
For Housing Providers
