- Renewal Project Application Detailed Instructions and Instructional Guide <[LINK](#)>
- Process for Completing FY2017 Renewal Project Application Screens <[LINK](#)> Not yet available 7/6/18
- Consolidated Application Guide <[LINK](#)>

Some e-snaps tips:

- Your agency must have at least one person on staff who is able to access and enter data into e-snaps. It is preferable to have two, but having more than two can lead to confusion and errors.
- e-snaps is the HUD system; it is the channel through which your application(s) will be transmitted to HUD at the end of the competition. It is NOT the system for the local competition and additional documents are required for the local competition. Information regarding submission of your application materials can be found at www.threeriverscap.org/continuum-of-care
- The e-snaps system is not always user-friendly or glitch-free. It is likely that you will encounter some problems along the way. Do not hesitate to contact CoC staff if you have problems with e-snaps. That said, many problems can be avoided by following the instructions closely and relying upon the Training Modules and by using the correct browser.
