Understanding & Documenting Match

Recipients and subrecipients are required to provide cash or in-kind match from sources outside of this grant funding request in accordance with the CoC regulations.

The recipient or subrecipient must match all grant funds, except for leasing funds, with no less than **25 percent** of funds or in-kind contributions from other sources. The 25 percent match must be provided on a grant-by-grant basis.

Types of Match

- **Cash Match**: A recipient or subrecipient may use funds from any source, including any other federal sources (excluding Continuum of Care program funds), as well as State, local, and private sources, provided that funds from the source are not statutorily prohibited to be used as a match. (The recipient must ensure that the rules governing match funds allow them to be match for the CoC Program.)
  - The cash must be used for activities that are eligible under Subpart D of the CoC Interim Rule.
  - **NOTE**: Program income **CAN** be used as match. Project applicants that intend to use program income as match must provide an estimate of how much program income will be used for match.

- **In-kind Match**: The recipient or subrecipient may use the value of any real property, equipment, goods, or services contributed to the project as match, provided that, if the recipient or subrecipient had to pay for them with grant funds, the costs would have been eligible.
  Before grant execution, services to be provided by a third party must be documented by a memorandum of understanding (MOU) between the recipient or subrecipient and the third party that will provide the services.
  - Services provided by individuals must be valued at rates consistent with those ordinarily paid for similar work in the recipient’s or subrecipient’s organization.
  - The MOU must establish the unconditional commitment, except for selection to receive a grant, by the third party to provide services, the specific service to be provided, the profession of the persons providing the service, and the hourly cost of the service to be provided.

Documentation of Match

Applicants are required to document all match commitments for HUD. Documentation must be dated between May 1, 2019, and September 30, 2019.

The following pages provide a form for documentation and potential sources of match. The agency may write a letter instead of using the chart on the following page, but the letter must include each of the pieces of information represented.

In the project application, projects must list the type of source and the value of each match commitment, but will **NOT** be required to attach the match letter. The match information entered in e-snaps should be based on the current commitments at the time of project application, covering the requested grant operating period, and **NOT** based on projections. The application should be accurate, with a commitment letter(s) in place that includes the amount(s) listed.
