What is an RTCC?
A Regional Transportation Coordinating Council (RTCC) is a local organization focused on delivering effective transportation. With support from Minnesota Council on Transportation Access (MCOTA), Minnesota Department of Transportation (MnDOT), and Minnesota Department of Human Services, an RTCC is established to improve transit access and coordination for people of all ages and abilities.

How do we establish an RTCC?
Three Rivers Community Action, Inc. obtained MnDOT grant funding for the current Phase I Planning process. The goal of this initial phase is to 1) engage stakeholders; 2) establish the geographic boundary for the RTCC; develop the RTCC structure and council membership; and 3) prepare an operational implementation plan. The initial planning process is expected to be complete by June 30, 2019.

What is the proposed boundary of the SE MN RTCC?
The SE MN RTCC would provide transit coordination services for the 11-county region which includes: Dodge, Fillmore, Freeborn, Goodhue, Houston, Mower, Olmsted, Rice, Steele, Wabasha, Winona.

Who should participate in the SE MN RTCC?
All stakeholders interested in improving transportation services in Southeast Minnesota should participate. Through this planning process, RTCC membership will be defined. The goal is to include representatives from county departments of social services, transportation providers, human services agencies, veteran service organizations, senior service organizations, workforce development, and private organizations.

How do I get involved?
Please share your perspective on local transit needs and concerns. Support from local agencies and organizations is encouraged. To share your feedback and participate in the RTCC, please contact a member of the Steering Committee (see reverse side).
